

In 2016 the ICAMT Conference was part of the ICOM Milan Triennial Assembly in July. The theme of the conference was Museums and Cultural Landscapes, over 150 participants and speakers joined the ICAMT sessions. Sessions were held on different venues in Milan, Italy. The venues were the Milan Conference Center, the Museum of Cultures and the Politecnico, the leading school of architecture in Italy.

#### WORKSHOPS

ICAMT organises workshops about the ways to control the environment in a museum building. Knowledge for this is a necessity for the museum staff.

2016 São Paulo, Brazil

2018 Lisbon, Portugal

#### CONFERENCES

ICAMT organises conferences based on a museum theme, which covers the local issues of the city where the conference is.

2017 Brussel/Antwerp, Belgium

# ICAMT

INTERNATIONAL COMMITTEE FOR  
ARCHITECTURE AND MUSEUM TECHNIQUE

## THE ARCHITECTURE AND MUSEUM TECHNIQUES COMMITTEE

ICAMT is the committee in which information, best practices and ideas come together about aspects from the architecture of the museum building, the techniques in the museum building and the techniques of exhibitions.

The members of ICAMT exchange, share and discuss these aspects during conferences and workshops. ICAMT provide a forum for the communication between members of ICOM/ICAMT by organizing the conferences and workshops, and the content on the website and newsletters.

For the scope of ICAMT, sustainability is an obvious aspect. Museums are sustainable in the heart, the long-term agreement with the collection, to exhibit, to research, to educate and to conserve, should be taken into consideration, in a sustainable way. ICAMT don't focus on the content in a museum, The focus of ICAMT is on the environment of the collection, the building.

## WHAT IS ICOM

The International Council of Museums, ICOM, is a network of more than 30,000 members and museum professionals who represent the global museum community. Members and experts represent 136 countries and territories to respond to challenges museums face worldwide.

## WHAT IS ICAMT

ICAMT offers a forum for the exchange of expertise for those ICOM members interested in museum architecture and museum techniques. This includes the aspects of planning, design, construction and the operation of museum buildings and museum facilities.
